

Competition Committee Report

Worked on three basic things:

1. Coed Semi Finals
2. Women's Semi Final format
3. Intersectional Schedule

1. Semi Finals-- The surveys said it was well received. Two issues timing of the announcement for teams and make the event feel more like nationals.

As for the timing we came up with a way to announce it to each conference after their qualifier regardless of the other conferences so everyone can get cheap plane tickets. As for the feel we thought by doing better with publicity and having it maybe closer to Nationals would help in this.

2. The format that we came up with is:

9 Teams taken from all the Conferences based on the Standard formula, PCCSC would get 2 teams. These nine have a bye right to the national finals, so big plus for winning Conference title. The next 18 teams from all conferences by standard formula, we would get 2. Would then sail a regatta, Semifinals for the last 9 spots at finals. This would get the strongest field at Nationals most likely.

3. There was a ton of fighting over the spring schedule but here are my thoughts, this is what I sent out to the people who were there. I have also attached a proposed schedule, see the tabs on the excel sheet. See what you think, this is only my idea. The two semifinals for fleet racing nationals happen right before the finals. See other comments below. As for the Fall, things did not change much with our proposal, but what I worked on for us is no major intersectional in early September and force everyone to do their single-handed early like we do and everyone bought off on it. Also I worked on clearing the schedule to get more teams to Stoney Burke and other conferences liked that idea. I don't have a copy of it yet but I will send it out when I do.

Please any more comments let me know.

John
